

TRAWLER 48M

KM★

ICE2 (hull)

ICE1 (machinery)

AUT1

Fishing vessel

TRAWLER 48M vessel equipped as a fresh fish trawler with a registration length under 45m capable of fishing with three bottom trawls simultaneously, equipped with 4 trawl winches. The hull is designed with the Endurobow™ bulbous bow shape providing various behavioural benefits from the design, including increased comfort for a crew upto 16 persons. The processing deck is a completely open space with no support pillars.

BASIC INFORMATION:

- overall length 48.10 m
- width 14.00 m
- number of crew 16 people
- max draft 5,75 m
- vessel speed 13 knots

FISH SPECIES:

- cod
- pollock
- haddock
- flatfish
- red fish
- herring
- mackerel
- squid
- shrimps
- and other types of fish

METHOD OF FISHING:

- The vessel is outfitted for bottom trawling with up to 3 trawls simultaneously and can operate as a shrimp trawler as well.

Fish processing area with an area of 285m² for the primary processing of the catch.

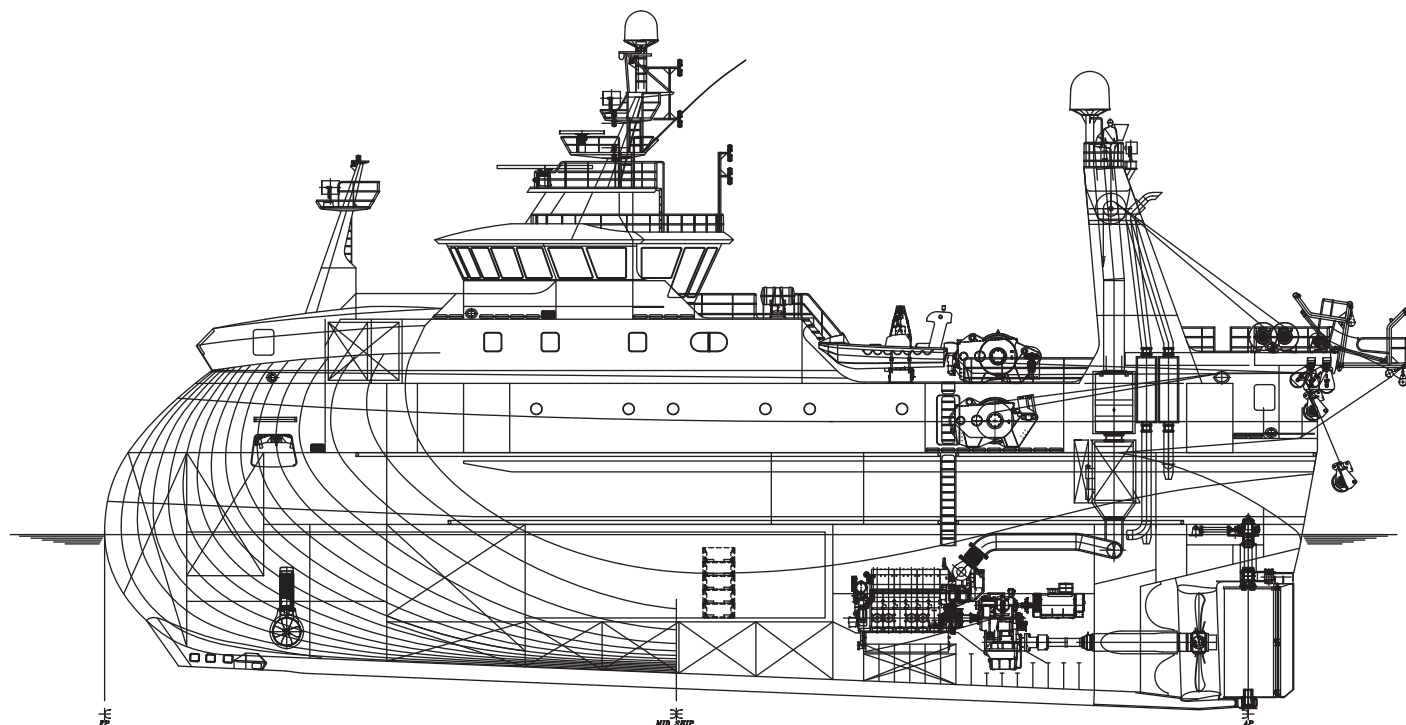

HOLD CAPACITY:

- fish hold ~ 630 m³ (approx. 185 tons of fresh fish in plastic tubs)

METHODS AND TYPES OF PROCESSING:

- gutting and cooling of fish for further processing onshore
