

FISHING VESSEL  
**TRAWLER 115M**

**ICE3(HULL)**

**Fishing vessel**

**TRAWLER** big freezing processing trawler with a possibility of fish catching with bottom and pelagic trawl, designed for maximum fishing efficiency. The design based on the well-established and proven **Enduro Bow** concept for the best seaworthiness in rough seas. This bow shape also allows full use of size of the vessel for the benefit of the crew and the maximum capacity of the fish hold and the vessel as a whole.

**BASIC INFORMATION:**

- overall length ..... 82.00 m
- width..... 16.00 m
- number of crew ..... 80 ppl
- scantling draft ..... 8 m
- vessel speed ..... 15 kn

**METHOD OF FISHING:**

- trawling

**PRODUCTON CAPACITY:**

- total processing capacity on the ship - 200 t / day
- freezing capacity - 200 t / day

**FISH SPECIES:**

- cod
- pollock
- red fish
- halibut
- herring
- mackerel
- sardines
- squid
- and other types of fish

**HOLD CAPACITY:**

- total capacity of holds ~ 2005m³.

**METHODS AND TYPES OF PROCESSING:**

- frozen blocks of fillets, mince, roe, milt, offal, fish meal and fish oil
